Introduction

When to use this form

This environmental permitting regime is known as and referred to as Local Authority Pollution Prevention and Control ('LAPPC'). Installations permitted under this regime are known as Part 'B' installations. Use this form if you are sending an application for a 'Part B' permit to a Local Authority under the Environmental Permitting (England and Wales) Regulations 2016 ("the EP Regulations").

Before you start to fill in this form

You are strongly advised to read relevant parts of the Defra general guidance manual issued for LA-IPPC and LAPPC, republished in April 2012 and available at: `http://www.defra.gov.uk/industrial-emissions/las-regulations/guidance/

This contains a list of other documents you may need to refer to when you are preparing your application and explains some of the technical terms used. You will also need to read the relevant Process Guidance note. The EP Regulations can be obtained from The Office of Public Sector Information, or viewed on their website at http://www.opsi.gov.uk/legislation/about_legislation.htm.

Which parts of the form to fill in

You should fill in as much of this form as possible. The appropriate fee must be enclosed with the application to enable it to be processed further. When complete return to:

Paul White, Monmouthshire County Council, Environmental Health, County Hall, The Rhadyr, Usk, NP15 1GA or environmentalhealth@monmoutshire.gov.uk.

You can also pay by telephoning 01873 735420

Other documents you may need to submit

There are number of other documents you will need to send us with your application. Each time a request for a document is made in the application form you will need to record a document reference number for the document or documents that you are submitting in the space provided on the form for this purpose. Please also mark the document(s) clearly with this reference number and the application reference number, if you have been given one, which will be at the top of the form overleaf. If you do not have either of these, please use the name of the installation.

Using continuation sheets

In the case of the questions on the application form itself, please use a continuation sheet if you need extra space; but please indicate clearly on the form that you have done so by stating a document reference number for that continuation sheet. Please also mark the continuation sheet itself clearly with the information referred to above.

Copies - not relevant for e-applications

Please send the original and 2 copies of the form and all other supporting material, to assist the Authority in conducting any necessary consultation process.

If you need help and advice

We have made the application form as straightforward as possible, but please get in touch with us at the local authority address given above if you need any advice on how to set out the information we need.

LAPPC application form: to be completed by the operator

A1

Applicant Details

A1.1 Name of the installation

SECURICLAD Ltd

A1.2 Please give the address of the site of the installation

Hadnock Road Industrial Estate, Monmouth.

Postcode NP25 3QG

Telephone 0191 258 9009 (switchboard at our North Shields office)

The Ordnance Survey national grid reference 8 characters, for example, SJ 123 456 (can be obtained from typing postcode into one of the on-line mapping sites).

| S | 0 | 5 | 1 | 5 | 1 | 3 | 0 | |
|---|---|---|---|---|---|---|---|--|
|---|---|---|---|---|---|---|---|--|

A1.3 Existing permits:

Please give details of any existing LAPPC or LA-IPPC authorisation for the installation, or any waste management licences or water discharge consents, including reference number(s) and type(s):

None.

Please provide the information requested below about the "Operator", which means the person who it is proposed will have control over the installation in accordance with the permit (if granted)

A2.1 The Operator – Please provide the full name of company, partnership or corporate body

| SECURICLAD Ltd. |
|---|
| Trading/business name (if different) |
| n/a |
| Registered Office address |
| 10 Alder Road, West Chirton North Ind. Est., North Shields, Tyne & Wear. |
| Postcode: NE29 8SD |
| Principal Office address (if different) |
| Hadnock Road Industrial Estate, Monmouth, NP25 3QG |
| Postcode: NP25 3QG |
| Company registration number 07426114 |
| A2.2 Holding Companies |
| Is the operator a subsidiary of a holding company within the meaning of section 1159 of the Companies Act 2006? |
| No |
| Yes name of ultimate holding company |
| Registered office address |
| |
| |
| Postcode |
| Principal Office address (if different) |

| Postcode | е |
|----------|---|

A3.1 Who can we contact about your application?

It will help to have someone who we can contact directly with any questions about your application. The person you name should have the authority to act on behalf of the operator - This can be an agent or consultant.

Name Dr David Ellis

Position Compliance Manager

Address 10 Alder Road, West Chirton North Industrial Estate, North Shields.

Postcode NE29 8SD

Telephone number 07951 410987

email address david.ellis@isoclad.co.uk

Please fill in the table below with details of all the current activities in operation at the whole installation.

In **Column 1, Box A**, please identify all activities listed in Schedule 1 to the EP Regulations that are, or are proposed, to be carried out in the stationary technical unit of the installation.

In **Column 1**, **Box B** please identify any directly associated activities that are, or are proposed, to be carried out on the same site which:

- * have a technical connection with the activities in the stationary technical unit
- * could have an effect on pollution

In **Column 2**, **for Boxes A and B** please quote the Chapter number, Section number, then paragraph and sub-paragraph number as shown in Part 2 of Schedule 1 to the EP Regulations [For example, *Manufacturing glass and glass fibre where the use of lead or any lead compound is involved*, would be listed as Chapter 3, Section 3.3, Part B(b)].

B1.1 Installation table for new permit application

| COLUMN 1 | COLUMN 2 |
|--|--|
| Box A Activities in the stationary technical unit | Section in Schedule 1 to the EP Regulations |
| Use in any 12-month period of 5 or more tonnes of any di-isocyanate. | Chapter 4 Section 4.1 Part A(1) (d) |
| Box B Directly-associated activities | Schedule 1 or Schedule 3 references (if any) |
| Cutting processes that generate particulates. | |

B1.2 Why is the application being made?

The installation is new

The installation is existing, but changes to the installation or to the EP Regulations means that an LAPPC Part B permit is now required.

B.1.3 Site Maps

Please provide:-

* A suitable map showing the location of the installation clearly defining extent of the installations in red.

Note – buildings at rear are not in use.

* A suitable plan showing the layout of activities on the site, including bulk storage of materials, waste storage areas and any external emission points to atmosphere

| Document | Reference | |
|---------------|-----------------------|--|
| Мар | Extent of factory.png | |
| Facility plan | Securiclad Layout.ppt | |

B2 The Installation

Please provide written information about the aspects of your installation listed below. We need this information to determine whether you will operate the installation in a way in which all the environmental requirements of the EP Regulations are met.

B2.1 Describe the proposed installation and activities and identify the foreseeable emissions to air from each stage of the process (this will include any foreseeable emissions during start up, shut down and any breakdown/abnormal operation)

The use of process flow diagrams may aid to simplify the operations

| Document | Reference |
|-----------------------|------------------------------------|
| Overview of processes | Manufacturing process overview.doc |

B2.2 Once all foreseeable emissions have been identified in the proposed installation activities, each emission should be characterised (including odour) and quantified.

Atmospheric emissions should be categorised under the following

- i. point source, (e.g. chimney / vent, identified by a number and detailed on a plan)
- ii. fugitive source (e.g. from stockpiles / storage areas).

If any monitoring has been undertaken please provide the details of emission concentrations and quantify in terms of mass emissions. If no monitoring has been undertaken please state this.

Emission concentration = e.g. milligrams per cubic metre of air; Mass emission = e.g. grams per hour, tonnes per year

B2.3 For each emission identified from the installations' activities describe the current and proposed technology and other techniques for preventing or, where that is not practicable, reducing the emissions into the air. If no techniques are currently used and the emission goes directly to the environment, without abatement or treatment then this should be stated

| Emission | Current technology |
|--|---|
| Particulate – core profiler. | Local LEV system inc bagged collection. |
| Particulate – beam saw (plywood). | Local LEV system inc bagged collection. |
| Fumes – Hot melt, line 1. | Extraction, filtered, vented to air. |
| Di-Isocyanate adhesives, line 2. | No extraction – effectively a closed |
| | system/minimum emissions. |
| *Particulates from panel cutting – Line 3. | Main extraction system. |

^{*}Not operational at time of application.

B2.4 Describe the proposed systems to be used in the event of unintentional releases and their consequences. This must identify, assess and minimise the environmental risks and hazards, provide a risk based assessment of any likely unintentional releases, including the use of historical evidence. If no assessments have been carried out please state.

| Unintentional Release | Action |
|---|--|
| Di-isocyanate spillage – goods receipt yard | Spill response plan. Coverage of drains for external spillage. |
| Di-isocyanate spillage – within | |
| facility | |
| Failure of local or main LEV | Spill response plan if applicable. |
| | Repair of equipment – process(es) do not run |
| | without LEV – H&S standpoint. |

B2.5 Describe the proposed measures for monitoring all identified emissions including any environmental monitoring, and the frequency, measurement methodology and evaluation procedure proposed (e.g. particulate matter emissions, odour etc). Include the details of any monitoring which has been carried out which has not been requested in any other part of this application. If no monitoring is proposed for an emission please state the reason.

| Emission | Monitoring plan |
|-------------------|--|
| Odour, | Propose to implement daily assessment as per |
| Particulates. | N.Shields site. |
| Di-Isocyanurates. | Identifying provider to undertake annual |
| - | assessment at the time of this application. |

Note. No significant issues at N.Shields site during operations.

B2.6 Provide detailed procedures and policies of your proposed environmental management techniques, in relation to the installation activities described.

Being drafted at the time of application. The North Shields site is certified to ISO14001. The plan is to develop and implement similar arrangements at Monmouth. The scope of certification shall then be expanded to cover Monmouth.

| Document | Reference |

B3 Impact on the Environment

B3.1 Provide an assessment of the potential significant local environmental effects of the foreseeable emissions (e.g. is there a history of complaints and/or is the installation in an air quality management area).

AQMA – No. (There are two roads in Monmouthshire that have been declared Air Quality Management Areas (AQMA) due to having exceeded the nitrogen dioxide annual mean objective level in the past: - Bridge Street in Usk & Hardwick Hill (A48) in Chepstow).

No history of complaints.

B3.2 Are there any sites of special scientific interest (SSSIs) or European protected sites which are within either:

- 2 kilometres for an installation which includes Part B combustion, incineration (but not crematoria), iron and steel, and non-ferrous metal activities, or
- 1 kilometre for Part B mineral activities and cement and lime activities, or
- ½ a kilometre for all other Part B activities?

No 🗌

Yes please give names of the sites

Sites of Special Scientific Interest (SSSI)

sssi name:

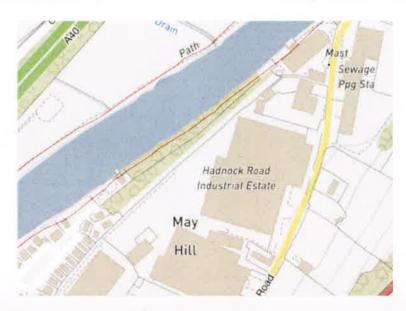

River Wye (Lower Wye) / Afon Gwy (Gwy Isaf)

sssi id:

1361

sssi code:

33WEB

B3.3 Provide an assessment of whether the installation is likely to have a significant effect on such sites and, if it is, provide an assessment of the implications of the installation for that site, for the purposes of the Conservation (Natural Habitats etc) Regulations 1994 (see appendix 2 of Annex XVIII of the General Guidance Manual).

Believe unlikely to have any adverse effects based on review of *operations* requiring consultation document for river Wye.

B4 Environmental Statements

B4.1 Has an environmental impact assessment been carried out under planning legislation, or for any other reason with respect to the installation?

No 🔳

Yes□

Please supply a copy of the environmental impact assessment and details of any decision made

B5 Additional information

B5.1 Please supply any additional information, which you would like us to take account of in considering this application.

The SECURICLAD products were manufactured at the N.Shields ISOCLAD site for several years prior to the process being transferred to Monmouth. Activities were under the permit from N.Shields council.

C1 Fees and Charges

The enclosed charging scheme gives details of how to calculate the application fee. Your application cannot be processed unless the application fee is correct and enclosed.

C1.1 Please state the amount enclosed as an application fee for this installation.

£ 1,629.00 (ref our PO436) (cheques should be made payable to Monmouthshire County Council)

We will confirm receipt of this fee when we write to you acknowledging your application.

C1.2 Please give any company purchase order number or other reference you wish to be used in relation to this fee.

| 2 | Annual subsistence charges | |
|----|--|--|
| | If we grant you a permit, you will be required to pay an annual subsistence charge, failure to do so will result in revocation of your permit and you will not be able to operate your installation. C2.1 Please provide details of the address you wish invoices to be sent to and details of someone we may contact about fees and charges within your finance section. | |
| :3 | Postcode: Telephone: Commercial confidentiality | |
| | C3.1 Is there any information in the application that you wish to justify being kept from the public register on the grounds of commercial or industrial confidentiality? No Please provide full justification, considering the definition of commercial confidentiality within the EP regulations. | |

C3.2 Is there any information in the application that you believe should be kept from the public register on the grounds of national security?

No

Yes

C4 Data Protection

The information you give will be used by the Local Authority to process your application. It will be placed on the relevant public register and used to monitor compliance with the permit conditions. We may also use and or disclose any of the information you give us in order to:

- consult with the public, public bodies and other organisations,
- carry out statistical analysis, research and development on environmental issues,
- provide public register information to enquirers,
- make sure you keep to the conditions of your permit and deal with any matters relating to your permit
- investigate possible breaches of environmental law and take any resulting action,
- · prevent breaches of environmental law,
- offer you documents or services relating to environmental matters,
- respond to requests for information under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004 (if the Data Protection Act allows)
- assess customer service satisfaction and improve our service.

We may pass on the information to agents/ representatives who we ask to do any of these things on our behalf.

It is an offence under Regulation 38 of the EP Regulations, for the purpose of obtaining a permit (for yourself or anyone else) to:

- make a false statement which you know to be false or misleading in a material particular,
- recklessly make a statement which is false or misleading in a material particular.

If you make a false statement

- we may prosecute you, and
- if you are convicted, you are liable to a fine or imprisonment (or both).

Declaration: previous offences

(delete whichever is inapplicable)

We certify

C5

No offences have been committed in the previous five years which are relevant to our competence to operate this installation in accordance with the EP Regulations.

Signature // // // '

Name David Ellis

Position Compliance Manager

Date 10/05/2023

C6.1 Signature of current operator(s)*

We certify that the information in this application is correct. I/We apply for a permit in respect of the particulars described in this application (including supporting documentation) supplied.

Please note that each individual operator must sign the declaration themselves, even if an agent is acting on their behalf.

For the application from:

Installation name: Securiclad Ltd.

Signature // ///

Name David Ellis

Position Compliance Manager

Date 10/05/2023

^{*} Where more than one person is defined as the operator, all should sign. Where a company or other body corporate – an authorised person should sign and provide evidence of authority from the board of the company or body corporate.
